

FIVE ARMED BANDITS STEAL \$45,000 PAYROLL

POSTAL EMPLOYEES HELD UP IN HEART OF CITY SATURDAY

Money Was Consigned to Mt. Olive and Staunton Coal Company—Men Driven Twenty Miles into Country by Robbers and Released—Clerk Hit on Head with Pistol

STAUNTON, Ill., May 26.—Five armed men late today held up G. A. Roberts, postmaster of this city, and Harry Kuehn, a postal clerk, in the heart of the city and escaped with approximately \$45,000, the payroll of the Mount Olive and Staunton Coal company mines near here. The money which had arrived on Wabash train No. 50, was intended to meet the bi-weekly payrolls at the mine. Roberts and Harry Kuehn, the money order clerk in the local postoffice had obtained the pouch containing the money from the train and were proceeding to the postoffice. When only two blocks from the postoffice and about three blocks from the station, they were forced to stop their machine by a volley of shots fired from the bandits' car. Roberts and Kuehn were armed but neither had an opportunity to use his weapon before they were overpowered.

VIEWS OF FOREIGN GOVERNMENTS ARE BEFORE OFFICIALS

Five Communications Before Treasury Department

WASHINGTON, May 26.—The views of five foreign governments with reference to the recent supreme court decision prohibiting liquor on foreign ships in American territorial waters were before treasury officials today for their consideration in framing regulations for application of the decision. The substance of the representations by the five powers were transmitted by the state department which has received from Great Britain and Spain written communications and from France, Italy and The Netherlands verbal statements of their views.

Whether the course of treasury officials in framing regulations would materially be modified by the representations was not apparent, but it was indicated that before final approval was given any draft there would probably be discussions with state department officials and with representatives of foreign governments in Washington in the hope of meeting the wishes of all concerned as nearly as possible. Officials declined to discuss the representations received. All five countries in explaining their position to the state department have taken approximately the same position holding that freedom of international commercial intercourse is threatened if considerations of comity between nations are disregarded in the application of the decision.

None of the communications have been made public, but it was said at the British embassy that the note it had submitted expressly refrained from contesting the jurisdiction of the American port authorities over vessels within the three mile limit.

GERMANY'S POLITICAL FATE RESTS IN RUHR

Hamburg, May 26.—Germany's political fate is being decided on the Rhine and in the Ruhr and "if militarism triumphs there will be tragedy for the republic." Delegate Wells of Germany, said in appealing to the international socialist congress to aid German republicanism in protecting itself against reactionary foes. "Moscow communism and Paris militarism," said the speaker, "are the two aides of German reaction. If the German republic falls, then everything on which it has been based will fall."

MEXICAN MINISTER PRESENTS CREDENTIALS

Berlin, May 26.—Manuel Alvarez del Castillo, new Mexican minister to Germany today presented his credentials to President Ebert who at the same time formally said farewell to the retiring minister, Dr. Alfredo Catapregil.

"UMBRELLA MIKE" BOYLE FINED FOR CONTEMPT OF COURT

Given Six Months in Jail and Fine of \$1,000

Waukegan, Ill., May 26.—Michael "Umbrella Mike" Boyle, Chicago labor leader, today was sentenced to six months in jail and fined \$1,000 for contempt of court for failure to answer questions in the grand jury investigation of charges of tampering with the jury which acquitted Governor Small on a conspiracy charge last year.

Judge Robert K. Welch of Rockford, sitting in the Lake county circuit court, who pronounced the sentence, later reduced the fine to \$100 and granted a stay of judgment until June 9, after attorneys for Ben Newmark of Chicago had indicated that Newmark might take the same position as Boyle.

Newmark, a Chicago investigator and deputy state fire marshal, was taken before the grand jury today but refused to testify. Later he was taken before A. V. Smith, state's attorney, who granted Newmark immunity from prosecution on anything he might reveal to the grand jury.

Newmark was then returned to the grand jury room but still refused to answer questions and Mr. Smith filed a petition asking that Newmark be cited to show cause why he should not be held in contempt of court. The hearing on this matter will be held on June 4th, the same day when the grand jury will reconvene. It adjourned today until that date.

Timothy D. Fell, attorney for Boyle, has declared his intention of carrying Boyle's case to the supreme court on a petition for a writ of supersedeas. Only two witnesses appeared before the grand jury today. One of them was Charles E. Ward, an attorney, and the other was Arthur Nugent of Bluff Lake. Three witnesses who are scheduled to appear before the grand jury when it reconvenes are Martin Zimmerman, former saloon keeper at Antioch and a friend of William J. Riley, Antioch bartender, whose testimony preceded three indictments already returned by the grand jury; Ben Miller, Antioch taxi driver and David Erman, who is at liberty under \$5,000 bond, following his arrest a few weeks ago in connection with the investigation.

DUBUQUE MAN HAS POOR MEMORY

DUBUQUE, Iowa, May 26.—That Thomas E. Rafferty vice-president of the A. A. Cooper Wagon & Buggy company and in their employ for 45 years at times had an excellent memory and at others a very poor one was brought out in the trial Saturday afternoon of A. A. Cooper and William F. Cooper charged by the government with conspiracy thru making false and fraudulent income tax returns for the years 1918, 1919 and 1920.

C. S. Strawbridge, expert appraiser, testified that Mr. Rafferty had given him off hand in a survey of the factory the approximate dates upon which machines had been erected and rebuilt, covering a period of 25 years. Mr. Rafferty, several days ago when being cross-examined by Counsel Linville for the government, could not tell the cost of wagons manufactured in the plant or even make a vague guess.

DISCOVER GERMAN POPPIES TOO LATE

ORANGE, N. J., May 26.—Discovered too late that 3,500 poppies, ordered for sale for the benefit of disabled war veterans, were made in Germany, the local American Legion Post went on with the sale today and disposed of the entire lot, however, without an outbreak of indignation to the New York firm which supplied the poppies. No American-made poppies were available.

ANOTHER CLUE

GOES GLIMMERING Aurora, Ill., May 26.—Another clue in the Warren J. Lincoln disappearance case went glimmering when police here today dug up what was supposed to be a new mysterious grave near a cemetery and found nothing. Workmen testing the soil for gravel deposits are believed to have dug the hole.

Condensed Telegraph News

(By The Associated Press)

Chicago, May 26.—A dispute between the southern Pacific system and its 19,372 maintenance of way employees was filed before the United States railroad labor board today. The employees, through union representatives, asking for wage increases that would involve an additional annual expenditure estimated at \$1,536,504.

Shamokin, Pa. May 26.—Three thousand miners are idle today through strikes at the Burnside, Sterling, Henry Clay, and Big Mountain Collieries of the Reading Coal and Iron Company. All of the strikes were called because retail coal sales clerks refused to join the United Mine Workers, contending they were confidential employees and not entitled to membership. Colliery union officials have ruled to the contrary.

Rockford, May 26.—Rockford and surrounding cities police today were asked to aid in the search of Mrs. John P. Lundell, 59, wife of a wealthy coal dealer, who disappeared from her home here yesterday afternoon. Mrs. Lundell is said to be suffering from ill health, and this is believed by relatives to have preyed upon her mind.

Washington, May 26.—Bert E. Haney of Oregon was appointed by President Harding today to be a member of the shipping board. He will succeed former Senator Chamberlain of the same state, who recently resigned, effective on June 30.

Galesburg, Ill. May 26.—So many students at Roseville high school, near here, have the measles that school authorities have called off plans for commencement exercises and all graduating activities.

Omaha, May 26.—The Omaha Grain Exchange closed early today to permit members to attend the funeral of George B. Powell, chief of its inspection department who died Thursday of heart trouble. Mr. Powell, widely known among grain men, formerly lived in Chicago and Peoria, Ill. The body will be forwarded to Peoria.

PEACE INSTEAD OF WAR IN NEAR EAST RESULT OF PARLEY

Agreement Reached Thru Offices of U. S. Minister

LAUSANNE, May 26.—Peace instead of war in the Near East was the welcome result of a dramatic session of the Lausanne conference held today at Ouchy Chateau to settle the Turco-Greek reparations controversy. Complete agreement was reached. The United States, thru Joseph C. Grew, the minister to Switzerland played an important part in the settlement. Mr. Grew's efforts for peace continued thru the night and today. The happy ending of the war threats is expected favorably to influence the remaining near eastern negotiations and force an accord on the points still disputed. Incidentally it will further the proposed revision of the Turkish-American treaties which are still in the stage of informal conversations.

The essential points in today's agreement are: Greece admits that she owes indemnity to Turkey, while Turkey renounces enforcement of payments; the two powers agree to rectification of the boundary between eastern and western Thrace and to the restoration of ships seized from one another since the armistice; the Turks agree to waive indemnity in view of Greece's precarious financial condition and Greece consents to the accession to Turkey of Karagatch and the railroad from Karagatch to the Bulgarian frontier.

COL. E. M. HOUSE OFF TO EUROPE

New York, May 26.—Col. E. M. House, once confidential adviser to former President Wilson, sailed today on the steamship Homeric, predicting that a majority of the Democratic senators at the next convening of congress would vote for the permanent court of international justice advocated by President Harding. "There may be three or four who will not vote for the court, but the majority will," the colonel told newspaper men.

LEGISLATORS TO FOREGO HOLIDAY THE COMING WEEK

Morning Session is to Be Held on Memorial Day

SPRINGFIELD, Ill. May 26.—Memorial Day will interfere with the next week of the Illinois assembly's session, coming as it does on Wednesday, but nevertheless there probably will be several important developments, particularly in the house.

The representatives decided as a body this week to forego a holiday in view of the tremendous amount of work awaiting them, but the Wednesday session will be confined to the morning hours, with an hour's memorial service closing the day. The senators with the \$100,000,000 road bond bill off their hands and nothing of equal importance to be considered until the \$18,000,000 omnibus bill comes over from the house, felt safe in taking adjournment until Thursday morning.

Passage of the omnibus in the house is set for Tuesday and no opposition to it in its present form is anticipated. Reconsideration of the gateway amendment resolution also is to take place Tuesday and its sponsors are hoping it will fare better than it did Wednesday when it failed of a two thirds majority by eight votes. The proponents are at a loss to account for the house opposition since the measure provides that only by majority vote of the people can the basic law be amended and therefore it is considered safe. They concede that perhaps the amendment providing that proposed constitutional changes may be accepted or rejected separately has made some enemies of the whole resolution among downstate members.

The long deferred outbreak on the house floor on the prohibition question probably will come Tuesday unless the gateway resolution takes up too much time. Representative Igoe, Democrat Chicago, leader of the "wet" faction in the house this week moved to non-concur in the judiciary committee's unfavorable report on his liquor bill and then postponed consideration of his motion. He already had pending a motion to non-concur in the unfavorable reports on six other bills and only one resolution which would have repealed the prohibition and search and seizure acts and had forwarded to congress the beer and wine referendum vote of last fall.

LOOK FOR MISSING VIRDEN PRIEST IN SEDALIA, MISSOURI

Brother and Detective Are Following Clues There

SEDALIA, Mo. May 26.—Encouraged by reports that Reverend Father J. A. Vranjak, missing Virden, Ill., priest had come to Missouri following his disappearance and had been seen in Sedalia by various persons, a brother of the priest, Frank Vranjak and a Springfield, Ill., detective, J. W. Diamond, with local officials, are following every clue in an effort to locate him. The two men today made a trip to Odessa, Mo., to confer with a motion picture film salesman who is said to have given the priest a ride to Sedalia in his automobile. The salesman, Jesse VanWinkle, said today he "picked up" a man wearing a garb such as is worn by priests, near Fayette recently and conveyed him to Boonville and later gave the same person a ride from near Pilot to Sedalia. Several persons in Sedalia today recalled that a strange priest had been here. When shown photographs of the missing man they resembled the visitor.

PAYS FOR BEER TAKEN 30 YEARS AGO

Waukegan, Ill. May 26.—Paying a conscience debt 30 years old, John J. Rubin, Hot Springs, Ark., today sent a letter containing 15 cents to pay for a bottle of beer he said was taken by him from the ice box of a boarding house operated by a man named Cobb he is endeavoring to locate thru the Antioch News. "Dear Mr. Cobb," the letter states, "when I boarded with you about 30 years ago, I took a bottle of beer from your ice box. Since I have become a Christian I am making things right. So I apologize and enclose 15 cents to pay for the beer."

AIRPLANES TO ASSIST TROOPS

Tsaochwang, May 27.—Two military airplanes arrived at Leuchung lake yesterday to assist the Chinese troops in their operations against the mountain bandits.

RAILROAD VALUATION ECONOMIC PROBLEM INTERESTS EVERYONE

Speakers so State at Conference of Progressive Bloc at Chicago—William Jennings Bryan One of Speakers—Fears Government Control of Country's Railroads

CHICAGO, May 26.—Railroad valuation is an economic problem of fundamental importance to every interest of America, speakers today told the conference on railroad valuation composed of members of the "progressive bloc" in congress, railroad labor leaders, sponsors of government ownership of railroads and spokesmen for farmers' organizations. The conference completed its organization and adjourned subject to the call of the present chairman, Senator Robert M. LaFollette of Wisconsin.

In resolutions the conference called upon the interstate commerce commission in making valuation of the railroads to pay particular attention to the reporting of original cost, donations and methods of valuation and refrain from issuing any further tentative valuations or final valuation "until the commission has so complied with the law."

Legal action against the commission was threatened in the resolution unless the commission complies with the valuation act. Another resolution declared that congress has never adequately exercised its power to define the rules for fixing reasonable rates.

The questions presented to the conference yesterday thru the Chicago association of commerce which claimed to represent shippers' interests was termed "a highly impertinent set of dishonest inquiries" emanating from the "usual sources of railroad propaganda."

Answering the questions propounded in this list, the committee on permanent organization declared the purpose of the conference is to organize for a united front the governmental and private agencies really representing the people.

A revaluation is not demanded. It was stated, the conference only desiring that the interstate commerce commission comply with the law.

A telegram from the national council of traveling salesmen's associations was received in which aid was offered to the conference in its work.

Bryan Makes Address William Jennings Bryan, the principal speaker at the public session this morning, preceding an executive meeting of invited delegates, told the assemblage he thought government ownership of the carriers might be forced upon the country by the apparent impossibility of providing satisfactory regulation. He did not relish the thought, he said because he was "afraid of the centralization of power in Washington, but government ownership seemed inevitable because 'God never made men good enough to withstand the temptations of one put at the head of a private monopoly.'"

He was followed on the platform by Governor Blaine, of Wisconsin, who told of the relation of rail valuation to rates; Governor Ross of Wyoming, who said he had come unprepared to speak; G. S. McFarland, a Boston attorney, who declared that railroads of whatever valuation may be decided upon as fair, should be government owned and operated and finally by W. C. Lansdon of Kansas, national lecturer of the farmer's co-operative and legislative union who discussed the relation of transportation charges to agriculture. Following the speeches, the conference went into executive session.

TO HONOR SOLDIER OF REVOLUTION

CALDWELL, Ohio, May 26.—Long forgotten, though one of the first American heroes to enlist under Washington in the Revolutionary war and said by official records to be the last Revolutionary soldier over whom taps were sounded, John Gray, whose body lies in a little 40 foot cemetery near this city is to be honored this coming Memorial Day. Members of the local American Legion and other military organizations have planned a brief service at his grave next Wednesday. John Gray died March 29, 1808 at the age of 104 years and two months. A small three foot headstone marks his last resting place.

ORGANIZATION OF RED CROSS STATE COUNCIL PLANNED

Mayor E. E. Crabtree One of Committee on Organization

(By The Associated Press)

CHICAGO, May 26.—A plan to form a state council of Red Cross chapters in Illinois will be proposed for action at a state Red Cross convention to be held in Chicago June 8. It is proposed that the council, to include leaders in Red Cross work from various sections of the state will advise the national organization on matters of policy affecting the state and will give effective aid in time of disaster or other statewide emergency. The convention will also mark a change in Red Cross work and will bring together three or more delegates from each of the state chapters and is expected to give representative to virtually every village and county in the state.

Judge John Barton Payne chairman of the American Red Cross and other national leaders have been invited to attend. The committee in charge of the includes G. B. Stadden, Springfield, C. A. Kille, Champaign, J. S. Brown, Monmouth, R. V. Field, Galesburg, C. M. Ross, Cairo, C. S. Kilbourne, Aurora, E. E. Crabtree, Jacksonville, J. E. Lockwood, Peoria and Marquis Eaton, Chicago.

CLAIM CURE IS FOUND FOR PARESIS

(By The Associated Press)

CHICAGO, May 26.—Paresis, long found incurable, has at last yielded to treatment, according to a report of more than fifty cases mentioned in the current issues of the Journal of the American Medical association, published today.

Trypsamide, a new drug, which is injected into the blood and is carried to the spinal fluid, which contains the diseased organisms which affect the brain, is the source of the great benefits found through the research and experimental work of Dr. A. S. Lovenhart, head of the department of pharmacology at the University of Wisconsin, and Dr. W. L. Lorenz, chief of the Wisconsin psychiatric hospital.

Similar work is being conducted by Prof. W. S. Lee Lewis and Prof. Frank C. Whitmore at Northwestern University.

The report declared two men suffering with paresis who would have died within two months had been returned to their families. Forty two cases of late paresis and twelve cases of the early form of the disease, were treated, all of the former class having been committed to state hospitals. Of the 42 advanced cases 21 are now working and providing for their families. Four others of these cases have shown improvement. Seven of the 12 early cases have been returned to health.

A THOUGHT

Joy shall be in heaven over one sinner that repenteth, more than over ninety and nine just persons, which need no repentance.—Luke 15:7.

God hath promised pardon to him that repenteth, but he hath not promised repentance to him that sinneth.—St. Anselm.

There's a three-sided economic warfare going on, consisting of price-booms, labor strikes and consumers' boycotts. Why not arbitrate?

Still another evidence that material manufacturers and workers in certain lines are over-reaching themselves is found in New York

state. There all highway work has been suspended because of the difficulty of securing supplies and the high prices.

It is growing more difficult to train young men in military training. If enlistments for Camp Custer can be taken as an indication, Reservations were made at the training camp for 900 entrants from the principal cities of Illinois and thus far the applications number only about 200.

It is said that in Chicago 75 per cent of the users of city water have unsatisfactory service and that the water plant, operated at a great annual loss, is getting in worse condition each year. However, this statement should not be taken too seriously for it was made in connection with comment upon the Thompson administration and so is biased.

It will be a surprise in some quarters that Elbert H. Gary, head of the U. S. Steel corporation made most of a recent address a plea for the application of Christian principles in business. The Steel Corporation is sometimes represented as a pitiless, grinding concern, but the facts of its history do not prove these charges. And Mr. Gary has the right to be accounted a business leader of broad vision, great courage and a high sense of justice.

THE FASCISTI GOVERNMENT

Prince Cautini, here from Italy,

likes Premier Mussolini, the Fascist leader, to Theodore Roosevelt. To many people this statement gives an entirely different light on the Fascist movement, sometimes called the "black shirt" government. Without doubt under this regime progress has been made and Italy has saved one and a half million lire, to which every department save that of national defense has made contribution. Railroads are expected to balance expenditure and income for the year and Mussolini hopes to turn them over to private operation. Telephones and telegraphs, too, will be surrendered at the earliest possible date, and government match sales are already abolished. Only the tobacco monopoly, well managed and profitable, will be retained.

It is a notable achievement, this of the Fascist, however illegal may have been the way the "black shirts" came to power.

A health authority asked to give a little advice on exercises, particularly as adapted to heart difficulties, replied: "There is no better exercise than graded walking. To strengthen the heart, selected hill-climbing is one of the best therapeutic agents we have."

Everybody knows that walking is good exercise. With most people that ends the subject. That it can be used systematically in gradually increasing degrees and become a direct specific for many forms of ill health occurs to few. As for the gentle art of hill-climbing, that is supposed to be a privilege reserved for the huskiest. Yet here is a medical expert recommending it not only for general exercise but as a corrective for certain forms of heart weakness. "The patient is made to exercise his heart just as he is made to exercise his legs and, as with exercise of voluntary muscles, comes increase in strength."

If, with the pleasant weather coming on, people would spend more time in walking and hill-climbing and less riding in automobiles, a good many cases of heart and other muscular weakness would be cured, and a good many troubles would be prevented.

ELIMINATING WAR MISTAKES If the nation should be forced into war again, it is hoped to avoid some of the blunders which were made in industrial mobilization for the World War. War department officials are drawing up plans to this end. They are consulting with men in civil life who were active in supply and equipment matters during the war, and who know from experience where the biggest mistakes were made in changing over from a peace to a war status.

In the event of another war this information will be valuable. One reason for the enormous cost of the last conflict was that the nation was rushed into it at such a break-neck pace that there was no time to make the change from civil to military production on an economical basis. Nobody was greatly to blame for the situation, but there is no reason why expensive blunders should be repeated if they can be avoided.

The people of America will be interested in the elimination of these costly mistakes in conducting a war. They would be still more interested in the elimination of the most costly mistakes of all—war itself.

HERE COMES HELP Don't "kid" the youngsters who, graduating this year from high school or college, start out into the world with sure confidence that they are going to take charge of things and save the situation on short notice.

All of us have to go thru that period of youthful enthusiasm. And it's a good thing. Looking back, the older generation realizes that their exuberant start gave them momentum without which they might have weakened and fallen by the wayside.

Go ahead, you graduates! You're the hope of the world. And the enthusiasm, confidence and energy that they are going to take charge of things and save the situation on short notice.

And the re-enforcements pouring from the schools this year are badly needed. The "regulans" are in mud to their necks and working the world over, most of us realize that the present generation has made pretty much of a failure of things. We've almost destroyed a civilization built up painfully and laboriously thru

FRANCES WILLARD IN HALL OF FAME

The bust of Frances Elizabeth Willard, noted temperance worker and educator, being unveiled in the New York Hall of Fame by O. H. Willard, a kinsman. Hers was the only statue of a woman among the seven placed there this year. The bust, by Lorado Taft, was given by the National W. C. T. U.

thousands of years. The rising generation will not have to do much of a job to beat our pitiful record. All set, youngsters! Bets on you! Over the top!

Most of you graduates have a very definite idea of what you want to accomplish in life. Try to keep your ideals strong, your courage high, your hearts young. You'll have temporary setbacks—many of them. They are sent to develop your character and brain, much like muscles in a gymnasium. How to the line. Keep headed for your goal. Don't let any circumstance or any person discourage you from your original purpose.

Above all, ignore the cynics. All of them are failures of one degree or another. That's what made them into failures—cynicism, the curdled philosophy of a life that really is well worth living if we are worthy of living. Guard your high motives. The world never has enough of ideals. At the end of the battle you will know that ideals are fed to humanity from only two sources—very old age, just finishing the fight... and youth, the newcomer, the re-enforcements for the weakening line of progress.

MANY MEAT TRAINS TRAVEL THRU CITY

Three solid trains of meat passed through Jacksonville Friday and three more yesterday on the Alton for the Lake Erie and Western connection at Bloomington, destined to eastern points and for Chicago and other points. It is rumored that the Santa Fe which has originally controlled a large part of this business has a bridge out at Fort Madison, Ia., necessitating the detouring of these shipments over the Alton.

DeMILLE'S Production "ADAM'S RIB" with Milton Sills, Elliott Dexter, Theodore Kosloff, Anna O. Nilsson and Pauline Garon A Paramount Picture

A pretty wife longing for romance—A husband immersed in his millions—A fascinating "other man"—A flirty flapper daughter. De Mille has taken these very modern, very human people and, with his usual skilled and lavish hand, woven them into the screen's greatest love-drama of today. A tale for flappers and al who love or knock them. You saw one side of the modern girl in "Man-slaughter"; you'll see the other in "Adam's Rib." Bobbed hair, rolled stockings, dimpled knees, luring lips—what shall be done with our modern daughters? Is there anything in their heads but jazz? DeMille shows you in "Adam's Rib." A story of fair women and three kinds of love. From jazz to the jungle, from the cave to the cabaret—here's the glowing drama of woman's love, frailty, and courage living gorgeously before your eyes. **MEMORIAL SERVICES
PLANNED AT ARCADIA**

Local Man Will Deliver Address and Firing Squad From Post Here Will Officiate—Program is Announced.

B. F. Lane of this city will deliver the memorial day address at Arcadia cemetery Wednesday afternoon. A program has been prepared by the community, and a firing squad from the local Legion post will go to the cemetery and perform the regular military ceremonies of the day. The same squad which officiated at the cemetery here will go immediately to Arcadia to conduct the services there.

A number of local people are planning to attend the services at Arcadia and a large crowd is expected. The community is attempting to revive the decoration day celebrations there, which have not recently been up to the standards of previous years. Following is the program as prepared by the committee:

Song—America.
Invocation.
Song—Marching Through Georgia.
Reading—Lincoln's Speech at Gettysburg.
Song—Columbia the Gem of the Ocean.

Song—Quartette.
Address—B. F. Lane.
Solo—Anna Dinwiddie.
Reading—The Roll Call of Deceased Comrades—L. A. Barr.
Reading—Our Honored Dead.
Song—Quartette.
Solo—Mary Rachel Thompson.
Election of officers for ensuing year.

Closing Song—Blest be the Tie That Binds.

IN MEMORY OF**HELEN WHITMER**

In loving memory of our beloved friend and class mate, we publish the following poem:

WHAT I LIVE FOR

I live for those who love me,
For those whose hearts are true,
For the heaven that smiles above me

And awaits my spirit, too;
For all human ties that bind me,
For the task my God assigned me,
For the bright hopes left behind me,

And the good that I can do.

I live to learn their story
Who've suffered for my sake,
To emulate their glory
And follow in their wake—

Heroes, martyrs, patriots, sages,
The noble of all ages,
Whose deeds crown history's pages,

And the time great volumes make.

I live to hold communion
With all that is divine,
To feel that there is union
Twixt nature's heart and mine.

To profit by affliction
Reap truth from fields of fiction,
Grow wiser from conviction—
Fulfilling God's design.

I live for those that love me,
For those whose hearts are true,
For the heaven that smiles above me,

And awaits my spirit, too;
For the wrongs that need resistance,
For the cause that needs assistance,

For the future in the distance,
And the good that I can do,

**ROADBUILDERS FIND
CURIOUS ANTIQUES**

Were Unearthed in Sacred Burial Places—Some Date Back 2,000 Years.

Chicago, May—A collection of unique objects found in Chinese graves a number of years ago is now on exhibition at the Chicago Art Institute. Some of them, such as a hand turned bowl, date back 2,000 years, while others are of the Tang dynasty and still others of the Sung dynasty. The collection has been loaned to the Art Institute by a Chicago art collector.

In the collection is the model of a watch tower, characteristically Chinese, filled with tiny figures apparently watching for the enemy. There is a temple jar of stoneware showing Buddha, with the devil under his feet, the sun overhead supported on a bracket, and twelve attending priests arranged about the round base. The collection also includes many finely modeled vessels of pottery, fired in such a way as to resemble bronze. There are curious candlesticks, massively designed elephants and cows, and grotesque figures of various kinds.

The collection was unearthed when the first modern steam railroad was built in China years ago. The right of way ran over one of the sacred burial places of the ancient empire. The construction gangs unearthed the venerated graves and brought to light thousands of curious and artistic objects.

BONES OF PREHISTORIC**SEA MONSTER FOUND**

Chicago, Ill., May 26.—The head, bones and vertebrae of what workmen believe to have been a prehistoric sea monster were found by workmen excavating for a new power plant near Waukegan, Illinois today. The bones were found 26 feet below the level of Lake Michigan and close to the shore line and are believed to have belonged to an animal the size of an alligator. Anthropologists will make an investigation.

**ELKS VOL-VIL AT
THE GRAND MONDAY**

Revue so Successfully Given by Local Talent Will Be Repeated Tomorrow Night.

"The Elk's Vol-vil Revue," the most generally popular home talent given in this city within recent years, will be presented again Monday evening in the Grand Theater, so that those who were unable to get seats at the other two performances, will have a chance to see it. Many of those who called this Vol-vil the best show of its kind they had ever seen, will take advantage of this return engagement and go again.

An unusually professional air, a smoothness of action and extraordinarily clever acts made the Elks show this year, remarkably

enjoyable. The music is given by the best local musicians, who have all had excellent training, the costumes are the latest and the songs and stunts are unique and original.

With Arnold P. Lovejoy, as director, the success of a production is assured, his other enterprises have shown. In the Vol-vil Revue, he created a delightful and amusing entertainment of music, dances and dialogue, which pleased every one of the hundreds who saw it before.

GULF TO CANADA FLIGHT COMPLETED BY LIEUT. CROCKER

Left Houston, Texas, at 5:21
o'clock Saturday
Morning

(By The Associated Press)
MT. CLEMENS, Mich., May 26.—Lieutenant Harrison G. Crocker landed at Selfridge Field here at 6:15 o'clock (Eastern time) tonight completing a non-stop Gulf to Canada flight. Lieutenant Crocker left Selfridge Field, Houston, Texas, at 5:21 (Central time) this morning.

Lieutenant Crocker flew over Canadian territory opposite Trenton on the final lap from Toledo, Ohio to Selfridge Field.

Lieutenant Crocker said his engine performed perfectly, except for a few minutes as he passed over part of Louisiana.

The greater part of the distance was flown at a height of 100 to 500 feet because of low hanging clouds. At one point Lieutenant Crocker said he was flying so low that he feared his plane would crash into the tree tops and he was forced to rise thru and above the clouds to a height of 3,000 feet. He was obliged to maintain this altitude for about an hour before he found a rift in the clouds that permitted him to get in sight of the earth again. The gasoline supply of 240 gallons was exhausted twenty minutes away from Selfridge Field and the remainder of the trip was made from the emergency fuel.

Two sandwiches were all Lieutenant Crocker ate on his record-making trip. He said he had coffee but did not have time to drink it.

General William Mitchell, assistant chief of the air service was at Selfridge Field and was one of the first to welcome Lieutenant Crocker.

"This flight," said General Mitchell, coupled with that of Lieutenants MacReady and Kelly from coast to coast, demonstrates conclusively that the United States can put an air force in the center of the country and move it to any border—north, south, east or west—within eleven hours."

CONVICTED OF SLAYING OFFICER

(By The Associated Press)
CHICAGO, May 26.—Charles "Slim" Duschowski, was convicted by a jury today of the slaying of Lieutenant Terrence Lyons, with another policeman who was killed May 10, 1922, in a revolver fight after attempting to stop an automobile containing three men. He was sentenced to serve 25 years in the Joliet penitentiary.

On the theory that the murder developed from a labor conspiracy Timothy "Big Tim" Murphy, now serving a term at Leavenworth penitentiary for mail robbery, Fred Mader, Daniel Joseph McCarthy, all labor leaders, and John Miller were tried for the killing. Miller, who took the stand against Duschowski who was arrested in California, was the only one convicted and is now in prison.

SAWS OFF HANDCUFFS WHILE OFFICERS SEARCH

(By The Associated Press)
AURORA, Ill., May 26.—While the village marshal of Geneva, Ill., and deputies from the office of Sheriff W. E. Orr of Kane county combed the city early this morning for a handcuffed man he was in a blacksmith shop sawing off the manacles. He escaped. It was not until 7 o'clock today that the place where he hid from the police and freed himself of his bonds was found. It had been broken into. The owner, Simon Hendrickson, reported the "burglary."

The fugitive, described as a man about 30 years old, 5 feet 7 inches tall and weighing about 160 pounds was nursed and captured last night by Night Marshal Robert Brandt of Geneva as he fled from an automobile he was trying to start. The marshal fired at him man twice and finally ran him down in the blind end of an alley. In the struggle the marshal knocked the unknown man unconscious. Then he put on the handcuffs. As the prisoner was being led to jail he made his successful break for liberty. "I don't want my mother to know," he cried as he departed.

STUDENTS EXPELLED FOR HAZING FRESHMAN

(By The Associated Press)
ATLANTA, Ga., May 26.—Eleven Emory University students tonight are making preparations to leave for their respective homes, following their expulsion today on charges of hazing freshmen—a practice prohibited under rules laid down by the college authorities.

The eleven men expelled from the school, it was stated today will not be allowed to take spring quarterly examinations their dismissal becoming effective immediately. At the end of the fall term next year those who wish to return will be allowed to apply for readmittance. It then will rest with college authorities whether they will be allowed to resume their studies as bona fide students.

Authorities tonight stated that students who took part in the hazing were masked for a time during the hazing. The masks were contrived, it was said by tying handkerchiefs over their faces.

Early reports of the hazing were that two members of the first class suffered rather serious injuries, but later developments showed that neither had suffered anything more than painful stripes resulting from the wielding of belts. The two men attended classes today.

BOSTON RED SOX FINALLY SOLD

(By The Associated Press)
BOSTON, May 26.—The statement that the long talked of sale of the Boston American League club had been finally consummated was made in late editions of a Boston Evening paper. It was said that application had been made with the city assessor's office for transfer of the club property to Palmer Winslow, Dr. Robert B. Drury and E. M. Shoenhorn of Columbus, Ohio. At city hall no confirmation of the report was obtainable.

The visit to Boston this week of President Ben Johnson of the American League was taken as confirmation that the Red Sox after many sales on paper finally were to change hands. Owner Harry Frazee has not yet admitted that a deal has been concluded.

STREETS OF SHIHUNG BLOCKED BY SOLDIERS

Canton, May 25.—Streets of Shihung, about 50 miles west of Canton, are blocked by the bodies of soldiers.

Shihung was captured by the Canton constitutionalists after two city gates had been mined. The retreating army looted and stripped the place.

Renewed fighting in Northern Kwangtung province followed the reported arrival of 60,000 troops of General Wu Pei-fu the Chinese commander and sponsor of the Peking government. Yunnanese reinforcements of Sun Yat-sen are rushing to Shihung in the north of Kwangtung.

Communication with Wuchow, the west river port on the Kwangtung border of Kwangsi province, has been restored partially by British steamers conveyed by British gunboats. Rail service to Hong Kong still is interrupted.

After heavy fighting east of Canton, Sun Yat-sen's army is slowly driving the enemy towards Waichow.

BAPTISTS LOWER THE BAN OF CREED

Atlantic City, N. J., May 26.—The ban of creed was lowered by the Northern Baptist convention today when it was voted that the president of the University of Chicago need not hereafter be a member of that denomination.

The delegates were almost unanimous in abolishing the custom of choosing the head of that University from among Baptist educators.

John Werries Jr. of Chapin was a business visitor in Jacksonville Saturday.

More Than 10 Million Interested in Wheat

(By The Associated Press)
SPRINGFIELD, Ill., May 26.—"More than ten million men, women and children of the United States," the call reads, "are directly interested in the production of wheat."

"The dissatisfied condition of a large portion of our agricultural population today is very largely due to the price of wheat which, measured by the cost of production or by the purchasing value of the farmer's dollar, is lower today than it has been in half a century."

"Failure to bring relief to the farmer from his present situation will have a serious effect upon every other industry and upon the consuming public, for permanent prosperity of the nation depends upon conditions being satisfactory upon the farms and farms that support the nation's physical life. A fair price for the wheat crop means purchasing power to the farmer, smoking chimneys for American factories and a full dinner pail for American workers."

"The disparity between our land values, taxes and labor, our standards of living and those of other wheat producing nations of the world makes it impossible for us to sell our surplus profitably in the open markets of the world. It is not a market we need for our wheat, but a profitable market. Realizing that higher prices for wheat can come only through increased demand, an outlet for our surplus production must be found in the United States by educating the public taste to consume more wheat and the companion products of the farm which accompany wheat in consumption."

"To the end that we may find a satisfactory solution for the situation which now confronts the United States, seriously imperiling the structure on which our prosperity is built, we call a national wheat conference to be held in Chicago, June 19 and 20."

To said national wheat conference we invite representatives of organizations of agriculture, commerce, elevators, railroads, millers, bakers, retailers; also of educational bodies and of all other industries related to the production, manufacture and consumption of our wheat crop, together with individuals interested in the solution of economic questions affecting the nation."

Beside the six governors, the call bears the names of President Bradfute of the American Farm Bureau; Senator Capper of Kansas; Senator-Elect Copeland of New York; George E. Chamberlain of Oregon; President C. S. Barrett, of the National Farmers Union; Sherman J. Lowell, master of the National Grange, and Aaron Shapiro, of the Co-Operative Marketing Department of the American Farm Bureau.

PIECES OF CLAY MAY SOLVE MYSTERY

(By The Associated Press)
CHICAGO, May 26.—Two pieces of clay found by workmen who ripped up the floor of the Evanston pier under which a skeleton believed by the authorities to be that of Leighton Mount, missing Northwestern University student, was found, were submitted to a chemist for analysis tonight by assistant state's attorneys directing the investigation of the pier. The chemical analysis was ordered in an effort to determine if possible whence the clay came, the authorities working on the theory that the body may have been buried and later exhumed and placed under the pier where the skeleton was found a month ago.

In addition to the clay a small bone, a piece of leather and a scrap of newspaper dated March, 1923, were found.

It is in the clay that officials place the most hope for a clue that may solve Mount's mysterious disappearance. From it they deduce that the skeleton may have had an earlier grave than the rocky cavern.

O. L. Olson, contractor and builder of the pier, stated that along the shore there was no soil similar to that found. He said at this point any clay in the ground is at least fifteen feet below the surface.

NO FIGHT BETWEEN SCIENCE AND RELIGION

(By The Associated Press)
WASHINGTON, May 26.—A joint statement holding that there is no antagonism between science and religion was issued here tonight as representing the conclusions of a group of forty distinguished Americans on a subject which recently has aroused bitter and widespread controversy.

The names of the cabinet officers, Secretaries Hoover and Davis three bishops and many others in positions of leadership in the political, business, scientific and religious world are attached to the declaration which was prepared by Dr. R. A. Millikan director of the Norman Bridge Laboratory of physics, at Pasadena, California.

"I don't want my friends to expect that because I go to Washington as the representative of the farmers that I go there to get for the farmers more than their just share. This federal reserve board must function for every individual in the country."

TROUBLE IN NEW ORLEANS STOCK EXCHANGE

New Orleans, La., May 26.—The entire listing committee of the New Orleans stock exchange resigned late today in protest against what the committeemen termed the "high handed policy" of President Harold Newman in "railroading" at a meeting during the forenoon a resolution striking stock of the New Orleans Public Service, Inc., from the exchange list.

The stock had moved up and down rapidly during the week and at the opening today was ten points under yesterday's closing quotation.

Robert Johnson of Springfield transacted business in this city Saturday.

AMERICAN PROPOSAL IN GAINING GROUND

(By The Associated Press)
GENEVA, May 26.—The American proposal for the control of opium traffic seemed today to be gaining ground among the members of the League of Nations and the American delegates are hopeful of the adoption of the main points of their plan.

China, Siam, Germany and Portugal reported favorably, while France and Great Britain are doubtful and Japan, Holland and India oppose the plan. The opposition stands on The Hague convention which it is contended allows the use of prepared opium.

Mrs. Hamill on Wright the American assessor on the committee informed the meeting that she was authorized by the Turks at Lausanne to say that Turkey would ratify the opium convention as part of the Lausanne treaty. This is of importance to America which gets most of its opium and opium derivatives from Turkey.

7 Days of Wonderful Cruising~

Chicago-Buffalo Line—Georgian Bay Route

When friends ask—"where did you go for your vacation?" you'll take real pride in answering "I went to Buffalo and back on one of the finest boats on the Great Lakes, enjoyed so many wonderful sights and visited so many places. Mackinac Island, Detroit, Cleveland, Buffalo had a whole day at Niagara Falls. Cruised on Lakes Michigan, Huron, St. Clair, Erie and among the 30,000 islands of Georgian Bay. Some trip, I'll say—over 2,000 miles—discovery all the way, every comfort and luxury and wonderful meals. Had a great time—everybody friendly—was introduced to so many nice people on the best by the social hostess, enjoyed the dancing, music, entertainments, games, etc. These cool, invigorating lake breezes put new life into me—felt like a new person when I got back home." YOU can start on a similar vacation trip any Tuesday or Saturday, leaving Chicago at 3:30 P. M. Central Standard time, on one of

STRIKE STILL SPREADS IN RUHR DISTRICT

Essen, May 26.—The workers and communists strike in the Ruhr continued spreading today and German officials estimated that 300,000 men were out. The strike was extended from the Dortmund region where many mines and metal works are closed into the Bochum mining district where 31 shafts and 15 metal works are shut down and 70,000 men are idle.

At the union mine between Dortmund and Bochum 20,000 men are striking. The German authorities have received reports that demonstration strikes also have become effective in unoccupied Germany bordering on the Ruhr, the men going out at Solingen, in the British area and at Hamm and Elberfeld.

Three of the trades unions at Dortmund sent a message to the Socialist International at Hamburg saying the situation was growing more serious, and that soon there would be chaos unless something was done.

BRITAIN WILL NOT BREAK WITH RUSSIA

London, May 26.—Great Britain has decided that there shall be no break with Russia. It is held in diplomatic circles that while the last note from Moscow is in some respects not wholly satisfactory the remaining points in the dispute with the soviet government are susceptible of solution by negotiation.

SOVIET REGIME IN SIBERIA SELLING BONDS BY LOTTERY

Vladivostok.—The commissar of the people's finances has permitted the issue of 20,000,000 roubles in new bank notes. The face value of the bank notes will be 1,000, 2,500 and 5,000 roubles. These notes will be guaranteed by the gold reserve of the district, and it is hoped that in this way the circulation of the Japanese yen will be curtailed.

The government is trying to raise a new internal loan in gold roubles, but so far it has not met with much success. The loan is in the form of a lottery, and prizes will be given from the accumulated interest of the bonds, which bear 6 per cent. In order to sell these bonds the government is offering them on the installment plan.

ANNOUNCA COMMITTEE FOR GOLF GAME HERE

Expect Big Job Handling Crowds
When Evans and McDonald
Play Here Wednesday—H. W.
King Heads Arrangement
Group

A big day for golf enthusiasts
is being planned for Wednesday
on the municipal links at Nichols
park. Chic Evans and Bob Mc-
Donald will be here to play their
exhibition match with Jack Key-
wood and George Knight. These
are players for whose presence on

their links cities much larger
than Jacksonville would pay big
money.

The general committee of local
golfers who will attend to the ar-
rangements for selling tickets,
handling the crowds and other
details was announced yesterday
by President Farrell of the local
association. It is as follows:

Harrison W. King, general
chairman.
Committee—Clifford Alvies,
Warfield Brown, Curtis Copp, W.
G. Goebel, S. M. Foley, John John-
son, John Larson, Wood Phillips,
L. F. Randall, Justus Wright,
Walter Wright, C. W. Fell, H. P.
Samuel, Marcy W. Osborne, F. E.

Farrell, Lathrop ward, Miss Ruth
Brown, Mrs. Pearl Laborence,
Mrs. H. P. Samuel, Mrs. Mary
Brown, Mrs. L. K. Chenoweth
and Mrs. H. W. King.

This committee will probably
be called together tomorrow to
make plans for the match. It is a
big undertaking, and if the weath-
er is at all favorable, the com-
mittee expects a real job in tak-
ing care of the crowd which will
witness the play of the noted
golfers.

I. S. D. TURNS TABLES ON BLUE MOUND TEAM

Defeated Visitors on Muddy Field
by a Score of 7 to 4—Carlson
Was in Fine Form

The I. S. D. nine turned the
tables on Blue Mound high school
on a muddy field yesterday, as
the game ended the score-board
read I. S. D. 7, Blue Mound 4.
The visitors took an early lead
and kept it until the sixth, when
the local school evened the count.
Both teams showed classy base-
ball, despite the soggy condition
of the field, after the sixth and
it seemed as if the game would
be extended after the ninth. This
proved otherwise. It happened
in the eighth, when the I. S. D.
put over three runs, clinching the
game.

Carlson was on the slab for
the I. S. D. and pitched a better
game than he did at Blue Mound
two weeks ago. Whitesell pitch-
ing for the visitors pitched a fine
game until the eighth when he
weakened.

The locals will cross bats with
the Western Military Academy at
Alton next Saturday.

Minor Pitches Way To Hall of Fame

(By NEA Service.)
BLOOMINGTON, Ill.—The ma-
jors have no monopoly on no-hit
games.

A minor leaguer—hardly more
than a rookie—has risen to tell
'em where to get off.

Ranney Young, star hurler of
the Bloomington Three-I League
club has pushed his way into
Slabdom's hall of fame along with
Addie Joss, Cy Young and Charlie
Robertson.

He recently twirled a perfect
game against the Rockford team,
at Rockford, Ill. None of the 27
batters who faced him in the nine
frames reached first base.

After he signed with the Bloom-
ington last year Ranney pitched two
other no-hit contests. Then ill
health affected his work. But he
appears to have regained his for-
mer strength and effectiveness.

Young's remarkable perform-
ance never has been duplicated by
any minor league player in the
national pastime's annals.

Ranney came here from James

Kipke, Wolverine Grid Star, Is "Jack of all Trades"

HARRY KIPKE.

(By NEA Service.)
ANN ARBOR, Mich.—Making
nine letters in three years is a
regular he-man's job for the col-
lege athlete.

But that's what Harry Kipke,
Wolverine grid star will have done
before he graduates next year,
having injuries or other unfor-
seen eventualities.

And Harry, who is working his
way through school, finds time to
write for the newspapers and get
good marks on his report cards,
too.

A more versatile sportsman per-
haps has never cast his lot with
Michigan's teams.

It's his football achievements,
of course, which have been heral-
ded the widest. Walter Camp
thought enough of him to give
him a berth on his 1922 All-Amer-
ican eleven.

Yet Kipke has more than just
amazing football ability in his
makeup. Matters not what is the
sport, he always is ready to take
a hand in it. And he generally
goes over as big as when he is
working in the mole skins.

The coveted "M" has been
awarded him in baseball and
basketball, as well as football, in
both his sophomore and junior
years. If time permitted, he no
doubt would knock off at least
one more initial in a major sport.
That would be in track. He is

one of the speediest runners
warming the boards of Waterman
gymnasium.

In intramural athletics, he
goes in for tennis, speedball, soc-
cer, handball, bowling and swim-
ming. Then he's pretty handy
with the mits. One night he
wrought such havoc with his op-
ponent in a fraternity boxing bout
that massers of ceremonies decid-
ed to bar him from further partici-
pation in such sociable little tilts
during vacation, when he isn't
kicking a football or knocking
out high ones. He spends his spare
moments on the golf links, mak-
ing the course in close to par.

And that's not all.

Harry, as a sport writer, covers
Michigan activities for various
newspapers. His friends say he
can be a winner either in coaching
or journalism when his school
days are over.

He's a modest lad, to boot. Pub-
licity—and he has had plenty of
it—has not turned his head. Pro-
fessor and students idolize him.

Back in Lansing, Michigan,
Harry helped to put his alma school
on the map in an athletic way. It
was his work, primarily, that gave
it state football championships
two years straight.

When he leaves Michigan with
nine letters he'll gain a distinc-
tion practically unique in the uni-
versity's history.

Drivers Qualify for Indianapolis Race

INDIANAPOLIS, Ind. May 26.
—Driving at a speed of more
than 108 miles an hour—the
fastest ever recorded officially at
the local speedway—Tommy
Milton today won the pole posi-
tion for the annual 500 mile
automobile race to be held here
next Wednesday. Seven other
drivers qualified their cars for
the event by negotiating ten
miles at a speed of eighty miles
an hour or more.

Milton's new eight cylinder
racer negotiated the final lap at
a speed of 109.45 miles per hour,
giving him a grand total average
of 108.17 miles per hour. The
total elapsed time was 5:32:81.
The machine is a single seater.
Rain interfered to some extent
with the trials.

Harry Hartz who finished
second in the local race last year
turned in the next fastest per-
formance, averaging 103.73 miles
per hour for 10 miles.

Dario Resta was next with an
average of 95.92 miles an hour.
Three French cars also qual-
ified. The machine driven by
Martin Alsaga made the fastest
time, 52.9 miles an hour.

Count Zborowski turned the
distance at a rate of 91.8 miles
an hour and Pierre Viscaya av-
eraged slightly more than 90
miles an hour. Other cars to
qualify were driven by L. L.
Corum and Howard (Howdy)
Wileox.

John Rieger, a mechanic rid-
ing with Max Sailer, a German
entry was injured about the head
and back when the racer in which
he was riding skidded in the
home stretch and struck the re-
taining wall. He was thrown
from the car. It was said he was
not seriously injured.

COMPLETE PLANS FOR MEMORIAL DAY GIVEN

Committee Will Receive Flowers in Morning—Details of Parade and Line of March are Published—Marbach to Speak at Cemetery.

Plans are now completed for Memorial Day exercises in Jacksonville on May 30th.

In the morning the decorations committee will have a table on the north side of the square where they will be glad to receive as many flowers as the citizens can possibly furnish for the morning grave decorations. John Minter, chairman of this committee requests that all flowers be delivered not later than 8:30 o'clock so they can be tied and taken to the different cemeteries in time to finish the placing of them in time to return in ample time for the afternoon exercises. Details from the different organizations will hold ritualistic services in the morning at Diamond Grove and Calvary cemeteries. Two details of Boy Scouts will attend to the decorating of the graves at all cemeteries during the morning.

For the afternoon parade the formation will be in the vicinity of Church and West State streets and will move promptly at one o'clock in order to complete the services here in time for the firing squad and details to go to Arcadia where services will be held later in the afternoon. The head of the parade will rest near the Dunlap hotel and the different organizations will assemble as follows:

Police squadron on West State street near the Dunlap hotel, followed by the band, the howitzer company, the G. A. R. and the W. R. C. in autos; the United Spanish War Veterans will form on North Church street near the intersection; the American Legion and Veterans of Foreign Wars, including the band and veterans from the training center will form on South Church street, extending south; the Service Star Legion and the D. A. R. will form next behind the line on South Church street; the Boy Scouts will form in rear of the U. S. W. V. on North Church street; the delegation from the School for the Deaf will halt on West State street and close in to their place after the movement of the bodies ahead. The line of march will be east on State street around the square and down East State, directly to the East cemetery where all services will be held.

The order of parade will be:

Police.
Band.
Honor Guard, composed of the Howitzer company.
G. A. R. in autos.
Woman's Relief Corps in autos.
United Spanish War Veterans.
American Legion and Veterans of Foreign Wars including the band and veterans from the training center.
Service Star Legion.
Daughters of the American Revolution.
School for the Deaf.
Boy Scouts.

Address by Rev. W. H. Marbach.

The services at the cemetery will include an address by the Reverend W. H. Marbach and devotionals led by the Reverend G. E. Stickney; reading of Lincoln's Gettysburg address; reading of Logan's address and the rituals of the G. A. R., U. S. W. V. and American Legion.

The parade committee is composed of William H. Crum, as Marshall of the Day, assisted by A. D. Arnold, Earl Cox, C. S. Black and Samuel Challenor.

The firing squad will be furnished by the American Legion and will consist of Walton Bland, Albert Yordling, Roy McAllister, Henry Ricks, William Smith, Clarence Walsh and Mason Henderson.

Any members of the G. A. R. or Woman's Relief Corps who are unable to get up to town for the parade should notify Adjutant Goheen, who will see that a car is sent for them.

All organizations and institutions are invited to participate in the parade, and any organizations contemplating participation should notify W. A. Westrope at the Journal office so that they may be assigned their place in line.

All ex-service men of any war are urged to appear at the American legion hall not later than 12:30 o'clock for formation so that the parade can move on time. This refers to all veterans whether members of any organization or not.

UNKNOWN PAINTER CHECKS RUNAWAYS

Man Steps in Front of Plunging Team on South Diamond Street and Prings Horses to Stop—Rides Away on Wheel Without Giving Name.

The residents near Diamond street and West College avenue were treated to a fine exhibition of personal courage yesterday afternoon about 12:30 o'clock.

A runaway team was tearing down the street and a painter who was just ahead of the team riding a bicycle with a kit of tools hanging from each shoulder very coolly turned into the curbing, parked his bicycle unslung his tools and stepped directly in front of the oncoming team and successfully grabbed the reins and succeeded in stopping the team, after which he mounted his wheel and rode away without leaving his name.

One of the residents chased after him to compliment him but he did not wait for praise.

SOLDIER MISSING MANY MONTHS FOUND

Philip Kennedy Former Jacksonville Resident Discovered in Hospital in France, After Relatives Believed He Had Made Supreme Sacrifice.

Many Jacksonville people will remember Philip Kennedy son of Prof. and Mrs. J. A. Kennedy, long time resident of Jacksonville now living in Los Angeles. Philip Kennedy, who attended Illinois college here and left the city as a young man. It was his lot to enter the service in the world war and he had part in several of the notable campaigns overseas.

A few weeks since when Herbert L. Smith was in Los Angeles he met Philip Kennedy, and learned something of the tragedy of his war experience. The word can properly be used in connection with the war story of this former Jacksonville young man, who for so many months after the war ended was among "the missing" altho there was no record of his death. In fact, it was only a few months ago that Philip Kennedy "came back to life" and when his parents were notified that he had been found in a hospital in a little town in France, their joy can be imagined.

Young Kennedy was in the motor service in the army and it was while driving a truck that he received wounds which sent him to a hospital. His injuries were such that for a long period of time he could give no account of himself and for some reason or other the usual methods of identification were not available.

The result was that in shattered health the ex-soldier gained strength so slowly that many months passed before he could make known his name and home address. Then he improved sufficiently to make possible his return to the U. S. and now he is living again in the home of his parents.

The injuries were such that Philip Kennedy at the time of enlistment a fine figure of a man, can never again be in full health and strength, altho now his mind is clear and he is gaining physically. In the world war with its almost countless sorrow there were few incidents, more tragic than this.

BRING MANY FLOWERS ON DEORATION DAY

G. A. R. Requests That Floral Remembrances for Soldier Dead Be Brought to North Side Square Before Eight O'clock Wednesday Morning

All who have flowers that they wish to be used for the decoration of soldiers' graves are requested to have them deposited in front of the American Legion hall on the north side of the square by 8 o'clock Wednesday morning.

It is earnestly desired by members of the G. A. R. and American Legion that as many flowers as possible be contributed.

Wednesday, May 30, is the day set apart for the honoring of the soldier dead of the United States. Although it is a sad fact that there are so many who have been called upon to give their lives in the pursuit of war, the sacrifice was in a noble cause, and those who made it are the more to be honored.

The flower that is laid on the grave of the dead soldier is a symbol of the sacred memory in which the living hold him. It is also a reminder that we are still principled for which the soldier gave his life. The solidity of the Union, the freedom of every man, woman and child who dwell under the Stars and Stripes, the fact that citizenship in these United States is not based on race, color or previous condition of servitude, all these are mutely eloquent in the flower that will be placed next Wednesday on the graves of those who gave themselves in sacrifice that the nation might exist altogether free and in one united body, inseparable forever. Don't forget to bring your flowers early Wednesday morning.

COMMERCE BODY TO CHOOSE DIRECTORS

Will Name Six Members of Commercial Division Board Also to Vote on Question of Closing Business Houses Each Week on Thursday Afternoon

The Chamber of Commerce is preparing for the annual election of six directors to the board of the Commercial Division. Ballots for nomination and election similar to those in the election of the board of the Chamber itself, are to be used, and the elections will be conducted along similar lines. It is planned to announce the results about June 10.

The retiring members of the board are: H. A. Breeden, H. M. Andre, Dennis Schram, L. T. Hamilton, C. E. Segner and Herbert Smith. The ballots are to be sent to the 225 members of the Commercial Division in a few days.

Along with the election ballot will go a referendum ballot on the question as to whether the merchants shall close their places on Thursday afternoon of each week beginning June 15 and ending Sept. 1. This has been suggested by some of the merchants, and there seems to be a considerable number in favor of such a weekly half holiday.

MEMORIAL SERMON AT WHITE HALL

Rev. L. E. Ellison Will Preach Sermon—Decorations Day Services at White Side Park — To Open New Drug Store.

White Hall, May 26.—The annual memorial sermon will be delivered in the Presbyterian church Sunday at 10:45 a. m. by Rev. L. E. Ellison, pastor of the First Baptist church. Unusual efforts are being put forth to enlarge the interest and attendance at this annual event. The Decoration Day exercises will be held in Whiteside park next Wednesday afternoon, the speaker being Judge Thomas Henshaw of Carrollton. An elaborate and impressive program is being arranged by G. R. Adams, adjutant of the G. A. R. post, with the co-operation of the post of the American Legion.

To Open Drug Store.

The purchase of the business room at the corner of Main and Sherman streets by L. C. Vinyard has for its object the institution of a new drug store by Mr. Vinyard, who has just graduated in Missouri, as a registered pharmacist. He will get possession October 1st, and Staples & Thompson will move their restaurant to another location. Mr. Vinyard purchased the property from the People's First National bank.

GIVE FINAL PROGRAM OF JUNIOR FESTIVAL

Eighty-eight Children Have Part in Three-day Fete—College of Music Praised

With greatest success of perhaps all three of the numbers, the annual spring festival of the junior department of the College of Music closed yesterday afternoon when the youngest children of the department gave proof to the fond families and admiring strangers of their achievements of the year.

One of the remarkable features of these three programs has been the absolute fidelity to truth that has been presented so carefully by the 88 children whose names have appeared on the printed programs. Fads may come and fads may go but truth goes on forever. Many have been the attempts at short cuts to musical education that the American public has spent millions of dollars upon in the past two decades, only to find that when serious study was begun, the fad must be forgotten and the fundamentals of rhythm, harmony and melody be mastered before real progress could be made.

In these last two decades the master psychologists among musicians have recognized the social life of the child and have therefore made musical facts social. No longer does the very young child struggle alone with the problems that tire him but the vexatious question comes before a group and by a group is overcome; and each member of the group has a personal pride in having gained the freedom of knowledge by concerted effort.

Even the playing of the piano is now taught to the musical young in classes and royally did Miss Kirby prove the worth of such effort. Both Miss Kirby and those under her tutelage in this class are to be warmly congratulated on a successful issue of the beginning of pianistic difficulties.

The program of individual numbers that follow this class demonstration gave new evidence of the earnest purpose of the College of Music; long may she live and may she ever enlarge her service to the community by the type of work illustrated in these three days.

STAR AVIATORS DIFFER WIDELY IN PERSONALITY

Owe Their Success as Flying Team to Contrasting Personalities—To Kelley is Given the Credit for Planning the Flight and Carrying it to Successful Conclusion

DAYTON, May 26.—Lieutenants Oakley Kelley and John A. MacReady, regarded as the country's premier airmen since they bettered the world's endurance record and made the first successful non-stop transcontinental flight, owe their success as a flying team as much to their contrasting personalities as to their admitted superiority as pilots, in the opinion of aviators at McCook Field here, the home station of the men. They predict that the ability of the two men to work together in trying situations will bring further aerial honors to the United States Army.

Kelley's enthusiastic and impulsive nature gives the combination the necessary "punch," while MacReady, more staid and quiet, furnishes the "balance" which is a necessary element in carrying thru many difficult situations, according to the belief of those who have observed the men working and flying together during the past two years.

A striking illustration of the divergent characteristics of the two fliers is given by Lieutenant Harold R. Harris who, in a speedy plane, overtook the pair as they passed over Dayton in their recent transcontinental flight. Harris, getting a late take-off, pursued the big ship for some miles before overtaking it. As he came abreast, he says, the man in the cockpit carelessly threw up an arm. "That's MacReady," Harris says he decided as he observed the action. For a moment the second passenger of the "72" did not appear. Then from the

BLUFFS RESIDENT LAID TO REST FRIDAY

Funeral of Mrs. Mary E. Korty Held at Family Home—Other News Items from Bluffs.

Bluffs, May 25.—The funeral of Mrs. Mary Korty was held at the family home two miles south of town at 1:30 o'clock P. M. Friday. Rev. John Deterding, pastor of the Lutheran church at Neeley had charge of the service and his comforting words of consolation to the hundreds of friends and relatives who had gathered to pay their last respect to one they loved were read from the Fourth Psalm. He spoke of her beautiful Christian life and during her last illness, how she had sought comfort and consolation from words found in the Holy Book. A devoted mother, kind neighbor and friend has gone to her reward. The music was furnished by the choir of the Lutheran church at Neeley. Songs: Lead Kindly Light and Rock of Ages were sung in a very impressive manner. The flowers were in charge of the following nieces of the deceased: Misses Minnie Bosker, Eva Hunsbald, Mary Shoemaker and Anna Tholen.

The bearers were Messrs. Thomas Buchanan, Herman Huseman, Charley Morris and Clifford Mills. Interment was made in the Green Cemetery.

The contest which has been in evidence for the past five months between the reds and blues of the M. P. Sunday school closed by a banquet being held at the church basement Thursday evening, the losing side, the reds giving the banquet. About fifty were present and enjoyed a social afternoon and partook of the bountiful repast served.

J. E. Likes is still confined to his home on account of illness.

Mrs. Tom Banner and daughter Mildred were visitors in Springfield Thursday.

The street and ally improvement committee is very busy putting the alleys and streets in shape. Much grading has been done putting streets in shape for oil. New crossings have been put in and in the near future a foot bridge will be put across Wolf Run in the south part making this crossing safe for pedestrians and especially children who must cross the creek to and from school.

Mr. and Mrs. B. F. Rockwood accompanied their sons, H. G. and G. C. Rockwood to Springfield Friday evening for a visit until Monday evening.

Mrs. Ed Mundy who has been confined to her home the greater part of the winter on account of illness is improving rapidly.

Miss Mollie Logan who was stricken with paralysis at the home of her brother, Harry Logan a week ago is critically ill and her condition remains unimproved.

Memorial services a union of all the churches will be held at the Lutheran church Sunday evening. Special music will be furnished for the occasion.

Mrs. Letha Davis has returned to her home after an illness of several weeks at a hospital in Jacksonville. Mrs. Davis was formerly Miss Letha Hart only daughter of George Hart who is also critically ill at his home four miles south of town.

Miss Cora Beavers has returned from Colony, Kansas, where she spent the past year with her sister, Mrs. Lyde Cannon and is at present caring for her sister, Mrs. Emma Smith who is ill at her home southwest of town.

EASY MONEY POINTS TO HIGHER BOND PRICES

Roger W. Babson Sees Opportunity for Investors During the Balance of the Year

WELLESLEY HILLS, Mass., May 25, 1923.—"Should the investor buy long term bonds now or wait in hope of getting them at lower prices?"

The question is uppermost in the minds of the investing public. A gain of two points in conservative bonds since last March has been welcome enough but there seems to be a great deal of discussion as to whether it is the beginning of the long swing upward or whether it will be offset by another reaction such as that ruling in the bond market of the first three months of this year.

Roger W. Babson's statement on the situation, issued today, presents evidence which deserves careful consideration by every one interested in the future of investment securities.

"Money rates are easy," according to Mr. Babson, "and will continue at about their present position for some time to come."

"January saw commercial paper at 4 1/2 per cent on the average. In February it rose to 4 3/4 per cent. March brought it slightly above 5 per cent. In April it ruled at 5 1/8 per cent. Early May brought it back to 5 per cent. Present indications are that it will continue at about the same level through the summer. Time loans have been made by the banks on about the same basis, while mortgage money is available in the east at 5 to 6 per cent.

"From the point of view of the bond market this easing in money rates indicates a slackening in the demand for commercial loans, an increase in reserve on the part of our banks and a shrinking up of the increased credit necessary to finance the sudden spurt in business at the beginning of this year. Since it is the habit of our banks to invest surplus funds in bonds as reserves grow, and to liquidate these bonds when commercial needs demand increased borrowing on the part of the general business public, it means that the banks of the country have turned from a policy of selling their holdings to a policy of buying them back again. While there are no direct indications on the effect that bank purchases and sales have on the general investment market, it stands to reason that the banks represent the largest single customer for bonds in the country and that their position must have an effect on bond prices. When the banks were selling they not only removed their purchasing power from the bond market but flooded it with their own holdings. When they reversed this position the stream of bonds that has been coming into the market from the banks is shut off and they offer purchasing power not

only for new but also for old issues. As long as they are buying and holding their bonds, prices cannot very well go below present levels, and should evidence a slight strengthening.

"When we examine the outlook as to the possibility of the banks changing their present position we see but two factors which might cause such a shift during the balance of the year.

"If in reaching the peak of its long swing, bull movement, the stock market develops into a feverish spurt, it may be necessary for certain of our banking interests to liquidate bond holdings in order to provide the cash necessary for stock loans on a higher price level. This might cause a temporary sag in bond prices which would be recovered as the flurry subsided. If the advance in the stock market does not develop into a spree of speculation but proceeds on an orderly basis it probably will have a slight effect upon bond prices.

"The other factor to be considered is that of crop moving which always puts a seasonal strain on our financial machinery beginning about the first of August and ending the latter part of October. This seasonal demand for additional credit may force commercial rates up a fraction, probably not more than one-half of one per cent. This probably will cause a slight recession in bond prices. It may not, however, offset an advance that is possible between now and that time.

"All present indications point to easier money and higher bond prices during 1924. I doubt very much whether it will be possible to buy good investment bonds next year at any where near their present levels. From the long swing point of view statistics clearly indicate that the general trend of bond prices will be upward over the next 15 to 20 years.

"From the investors' point of view the present bond market offers a real opportunity. Prices may react slightly on either of the two developments outlined above, but I am not at all sure that the investor who waits and tries to pick these exact low points will save enough to make up for the interest he may lose in the meantime. If you are buying securities for a regular income I suggest that you buy sound, long term bonds now, and that you continue to buy them for the remainder of 1923 as funds become available."

General business is holding its own in spite of the slackening of trade in some lines. The index of the Babsonchart shows general activity at 5 per cent above normal, within 1 point of the high point for this year.

PEONIES WILL BE PLENTIFUL

SPRINGFIELD.—Peonies, the popular flower for Decoration Day, will be abundant in Illinois this year, according to local florists. These flowers are grown out doors and some years their growth is so slow they are not ready for cutting by Decoration Day. When this condition exists, they are imported from southern fields.

There are from eight to ten acres of peonies now in bloom in Springfield. This flower, with roses, carnations and gladioli now form the chief flowers handled by florists on this day when the dead are remembered with a living symbol of life, according to growers.

Peonies have been the popular Decoration Day flower for ten years, florists say. Large fields of them are grown in the south, especially in Florida. Use of flowers for all purposes has grown greatly in the last few years, causing a proportionate scale of growth of individual plants for raising flowers on a commercial scale. One of the largest plants in the world, and the largest in the state, is located at Morton Grove, near Chicago, which has 1,000,000 square feet of glass.

COMMENCEMENT AT LOMBARD COLLEGE

Galesburg, Ill.—Commencement week at Lombard college, which opened today with a baseball game with Augustana college, will be featured next Tuesday by a senior pilgrimage in which the seniors, capped and gowned, will visit and pay their last respects to the campus landmarks and traditions, stopping at the "pump," the Lombard Elm, the stadium, the camp ground, the gymnasium, the fire escape and the "spoon holder." The various classes and organizations in the college will entertain the seniors at these stopping places by various stunts.

Dr. L. B. Fisher of Chicago will deliver the baccalaureate address tomorrow. The graduation exercises properly will take place May 30. Thirty-six will be graduated; 19 of whom will be given the bachelor of arts degree and 17 the bachelor of science.

SEVEN SURVIVORS IN MEXICAN WAR IN 1848 RESIDENT IN ILLINOIS

Oldest of the Seven is John Wedig Who is 98 and Who Resides at Granite City—Four of These Veterans Relate Their War Experiences for The Associated Press

SPRINGFIELD, Ill., May 26.—The 75th anniversary of the close of the Mexican war of 1848, to be observed May 30, finds but seven of the 51 veterans of that conflict still alive.

All of these veterans are over 90 years old, and like their comrades of the Civil war, but with even more cause, they find the ranks are growing pitifully thin and the recollections of those distant battlefields blurred by dimming memories.

The oldest of the seven is John Wedig, 98, who resides near Granite City, Ill., on rural route No. 1. He was private in Troop B, First United States Dragoons.

Then comes Calvin R. Thompson, 97, who was a private in Company A, Second Indiana Infantry. He resides near Smithshire, Ill., on Rural route No. 2. The others come in the following order:

John A. Read, 96, of Perry, Ill. He was a private in Company D, 27th United States Infantry; Jason Green, 94, Garrett, Ill., a private in Company E, Fifth Indiana Infantry.

William Corbin, 94, Sullivan, Ill., private in Company G, First Illinois Foot Volunteers; Jesse Stonecipher, 92, of near Xenia, Ill., on rural route No. 3, a private in Company B, Fifth Tennessee Infantry;

William Curran of Quincy Road, Riverside, Ill., a recruit in the Ninth United States Infantry in the Mexican war and a sergeant in Company E, 27th Illinois Infantry in the Civil war.

Four of these old veterans have given to The Associated Press brief sketches of their war experiences. The other three did not respond.

One tells of his trip by flat boat down the river and by sail boat to Vera Cruz on his way to join the American forces in Mexico. Another tells of how he was discharged with yellow fever, which he contracted in the war, while a guest in a St.

STAR AVIATORS
DIFFER WIDELY
IN PERSONALITY

(Continued from page Nine.)
by his brother aviators. As chief of maintenance of planes and engines at the mammoth flying center, Kelley in the face of ridicule, opposition and statements that the air service had no ship which had even a chance of flying across the continent, has worked, talked and lived on the plans for the coast to coast flight, during his two years at the field.
For some time no plane appeared that seemed capable of carrying out Kelley's plans, but finally the T-2, a Fokker ship originally designed as an eight passenger transport, was brought to McCook Field. Kelly recognized the possibility of long distance flights in it, officers say, and he immediately started work. With a rebuilt fuselage and a new Liberty engine Kelley and MacReady started from the coast last fall only to be forced down at Indianapolis thru a mishap. Undaunted Kelley, aided by Lieut. E. Dykeman, an expert in the engineering department of the field, continued his work on the plane and after further improvements had been made Kelley, in company with MacReady, realized the ambition he has held for almost two years.
Never Had Service Mishap
McCook Field aviators say that one of the best testimonials to the flying ability of Kelley and MacReady, is the fact that neither has had a serious mishap during more than five years of air service. Both have been fliers since 1917.
Both Kelley and MacReady originally were Californians and both received their training at Rockwell Field at San Diego. Kelley's family, however, now reside at Grove City, Pennsylvania. MacReady was married to an Ohio girl in San Diego shortly after the completion of the successful flight. Kelley is unmarried.
MacReady has had a picturesque career. Graduated from the University of California, he was admitted to the bar and subsequently became a rancher, a justice of the peace in a small mining community, and early in the war entered the air service where he has remained ever since. He has earned a reputation as a hero in the service.
Kelley, somewhat younger, entered the service after completing his schooling.

SEVEN SURVIVORS IN
MEXICAN WAR IN 1848
RESIDENT IN ILLINOIS

(Continued from Page Nine.)
Louis hotel, where he had gone to rest, he was robbed of all his belongings even his discharge papers which would have entitled him to 16 acres of government land. Another tells of how he was tied up by his thumbs for 30 minutes for punishment and of the battle in which old Santa Anna, the Mexican general, lost his wooden leg.
The youngest of the lot at the time of his discharge was William Curran. He was in the war eight months and was only 16 years old when discharged. Without a single wound, he declares, he went through the following engagements: Cerro Gordo, The Heights of Atetlaya, the Castle of Haya, Puebla de los Angeles, San Augustine, Contreux Chapultepec, Churruapue, Molino Del Rey, and San Cosimo.
Had Yellow Fever
"After the close of the Mexican war," wrote Mr. Curran, "I was seized with yellow fever and spent six weeks in the hospital at Vera Cruz and from there was sent to New Orleans where we were issued new clothing and shipped on a steam boat to Jefferson Barracks, St. Louis, and there discharged. After being discharged I felt rather weak owing to the results of the fever and went to what seemed to be a respectable hotel in St. Louis to rest a while. I was robbed at this hotel during the night of everything I possessed. I then made my way back to Jefferson Barracks to present the case to the commanding officer, but he said he could do nothing about it so I went to the hotel and borrowed fifteen dollars to take me back home but was only able to get as far as Chicago with the money, that day being the first day that ground was broken for the first railway entering Chicago. I then engaged in my old trade of seaman on the Great lakes.
"I finally made my way to Syracuse, New York, in the fall of that year and since I had lost my papers entitling me to 160 acres of land, when I was robbed at the hotel in St. Louis, I presented the case to a lawyer in Syracuse who said he would try to get it back for me but it was never done."
John A. Read deserted a carpenter apprenticeship to join the army. In February, 1847, he enlisted in Company K, 14th Infantry for the duration of the war under Captain James Blackburn of Kentucky. He relates that his company arrived at Vera Cruz about March 4, 1847, landing there in self boats.
"We shelled the city for 16 days," said Mr. Read. "When they surrendered, about 13,000 Mexican soldiers came out and stacked their arms, which we piled up and burned. General Scott paroled the officers, who got down on their knees and took oath that they would not serve any more in the war.
"We left Vera Cruz and started for the City of Mexico. Our next battle was at Cerro Gordo. It was a hard fight, lasting all day. Our captain was wounded in the knee, making him a cripple for life.
General Shield also was wounded in this battle. Here is where old Santa Anna left his wooden leg and escaped on a mule.
Capture of Mexico City
Mr. Read then narrates their march on Mexico City and the capture of that stronghold. After returning to Vera Cruz he took ill with yellow fever and was sent to a hospital at Carrollton, eight miles above New Orleans, where there was a large race track and where the judges headquarters had been made into a hospital.
"I was not able to leave until the last of September and then the doctors said I could not live, and if I did my health would be ruined.
"They punished soldiers in those days by whipping, and I was tied up by my thumbs for 30 minutes.
"I will be 97 years of age August 31 (if I live). I am able to be about town and expect to attend the celebration this Memorial Day by riding down town in a car."
Mr. Read, despite his 96 years, writes a vigorous, steady hand.
Old Style School Teacher
Jesse Stonecipher had been what he described as "an old style" teacher in the rural schools in winter and a farmer in summer prior to his enlistment for the war in July, 1847. In November, he said, his company went on flat boats down the river to Paducah, Ky. He relates this incident on the way.
"We had a disagreeable time going thru the Muscle Shoals. One boat in front of ours struck a tree leaning out over the water and tore the top off the boat. One man was killed by the crash and one was drowned.
"From Paducah we went to New Orleans and there went on board a sail boat. On January 1 we landed at Vera Cruz."
He told of a scouting trip into the mountains and of the suffering of the soldiers from shortage of good water. He did not participate in any battles. Upon his discharge he returned to Nashville, Tenn., by boat, from where he sailed to his home in eastern Tennessee, 160 miles.
Mr. Greene, who was born in Dearborn county, Ind., in November, 1828 enlisted for the Mexican war in September 1847. He was at Mexico City, but saw very little action, he stated. He was discharged July 26, 1848.

KIWANIS CLUB MEMBERS
GATHER AT ATLANTA

ATLANTA, May 26.—Six thousand Kiwanis club members from all parts of the United States, and some from Canada, scheduled to arrive by rail, airplane automobile and on foot will assemble here Monday May 28, as delegates and visitors to the international assembly of Kiwanis clubs. They will be in session four days.
One delegate has notified Atlanta convention headquarters that he will fly down from Tennessee, while another has announced he will walk to Atlanta from a city in Pennsylvania.
The convention will be one of the largest on Atlanta's calendar of the year, and all agencies in the city are cooperating to put it over. Civic clubs and woman's organizations are uniting in handling extensive entertainment features.
Monday and Tuesday will be marked by business sessions. On Wednesday the visitors will observe national Memorial Day with exercises before the peace monument in Piedmont Park, at which George H. Foss, of Tronto, international Kiwanis President will be the speaker. Thursday's closing sessions will be featured by election of officers and selection of the next convention city.
A variety of entertainment will be sandwiched between business sessions. Automobile trips will take the Kiwanians to many points of interest, including the famous Stone Mountain upon whose face is being carved a memorial to the south's war heroes.
A "Georgia barbecue," without which no convention here is regarded as complete, will attract the Kiwanians one day during their visit. "Plantation Days," an indoor feature auto-hellum costumes and negro choruses, with a Virginia reel to top it off.

Pennsylvania Hard Coal For 1923

The eastern states have just gone through their greatest coal shortage. There is no assurance that the spring and summer tonnage will ever get caught up with the demand in 1923.

On September 1st the Present Mine Wage Scale on Hard Coal Expires

The hard coal miners want more money. Their low day pay scale is about \$5.00. The low day scale for soft coal miners is about \$7.50. This is what the hard coal miners are asking for. It looks like more money and higher priced coal or a strike. Take your pick and take your chances.

Get Your Hard Coal Early and You Are Safe
Prices will not change much this year. The most important factor now in anthracite is that of getting it. It will be impossible to make up the lost tonnage and the east will be given the preference. So the wise householder will get his coal now while it can be obtained.

Diamond Grove Memorial Mausoleum

As the years roll on, how often does the question come to mind: "What am I leaving undone?" How many fathers and mothers who have left estates—some large, some small, sleep today beneath unmarked graves while thoughtless children waste the savings which represent the honest toil of neglected memory of loving parents.

Think that by the Better Way the opportunity is for the first time offered that you may provide for yourself and those whom you love assurance of a resting place in the beautiful Diamond Grove Memorial, where in surroundings of peace, comfort, beauty and shelter may rest the remains of those whose toil has gained the right to a well marked resting place and the continued care of the fund, the income from which forever maintains it.

The purchase price covers all but funeral expenses—no taxes, no assessments, no further payment. Delay in choice of space for the final resting place causes painful confusion at the time when one is least prepared. Mark your choice of space in Diamond Grove Memorial NOW and avoid the added suffering at the time of death.

**Goodyear
Tires
are not
High Priced**
Some people have the opinion that a tire with such high quality material and long service must be high priced. They are mistaken.
It is produced in such volume, and by such economical methods that it can be sold at a price lower than others must get for tires of comparable quality or less.
The Goodyear Cord is built by the Goodyear method of group-ply construction, with the plies laid in alternate groups insulated with pure rubber. That means reduced internal friction, and consequently longer wear. This group ply construction is a patented feature found only in Goodyear tires.
Its carcass is made of selected long-staple cotton, with the highest tensile strength of any cotton used in tire building.
It is armored with high-grade tread stock, thicker than the treads of most tires. This stock is carried down to the bead, making a strong sidewall that is highly resistive to rut wear and curb wear.
Its tread design has an efficient, non-skid character, a high resilience, and a distinctive resistance to wear.

**WOMAN'S COLLEGE
NOTES**
Quite a delegation of Jacksonville people went to Winchester to see the pageant presented by the High school Friday afternoon. This was under the direct management and the pupils had been trained by Miss Vera Wardner, who graduated from the college in the Class of '21. Miss Wardner was especially good in all departments of physical education, and the pageant which she had presented was quite a triumph to her ability and planning.
The annual Track meet held Saturday afternoon was run off under the rules of the Athletic union and will become more and more interesting from year to year as the college records are developed.
An interesting report has been received from one of the music students who is living in Kewanee, Miss Grace Rowell, who was a strong voice pupil in the College of Music two years ago, went from Kewanee to Davenport, Iowa, last week where she sang at the Broadcasting Station WOC at Davenport.
A pep meeting was held Friday noon on the front campus in anticipation of the Track Meet Saturday afternoon. Impromptu speeches were made by a number who were to participate. Much enthusiasm was exhibited.
Student officers for the various 1923-24 college organizations were installed Friday morning with appropriate exercises.
The pledges for the W. C. T. U., a secret organization were out Saturday morning. Around her neck she wore a green ribbon, which was a symbol that a certain few were admitted into the secret organization.
A new organization is being formed at the college known as the Oasis club. The charter for the Oasis club is expected to reach the college within a few days. Only students who are qualified in certain points of proficiency in swimming are eligible for membership. Commodore Longfellow, who has been at the college twice the past year, has been greatly interested in the unusual development in swimming at Illinois Women's college, and has been very kind in the write-ups which he has sent to the various papers that he represents. This idea of an Oasis club was suggested in the description of the divers and swimmers of the college which appeared in the Sunday Tribune on May 6th., in which it spoke as follows: That while these girls were not on the Atlantic or Pacific coast where they had ample opportunity for swimming, yet in spite of their handicap they had developed a style and skill in aquatic sports unexcelled by any of the amateur clubs.

REUNION SERMON
At the Salem Lutheran Church Sunday morning a reunion service will be held for all confirmation classes confirmed in the Lutheran Church of Jacksonville since founding of the congregation in 1858. A printed invitation has been sent to all still living whose names and addresses could be obtained. Many are scattered all over the United States and Canada. The Organ Fund Society is asking all confirmants of Salem Lutheran to present their mother church with a new organ. To this end an envelope was inclosed with each invitation for a donation to the Organ Fund. A large attendance and liberal donations are expected.

**COLLEGE OF MUSIC
NOTES**
Miss Sapio played a group of Chopin numbers at the High school Music Appreciation class last Monday. Suzanne Rinehart contributed several violin solos, the entire program being heartily applauded by the class members.
Miss Sapio and Miss Horsburgh will again be in charge of the musical activities at Winsquam Girls' camp on Lake Champlain during July and August.
Suzanne Rinehart will leave shortly for Lincoln, Nebraska, where she will attend Mr. Steckelburg's summer class a great feature of which is practical and theoretical training in children's class work in violin.
The public is cordially invited to attend the annual orchestral concert on Monday evening, June 4. A splendid program has been prepared ranging from the classics to the most modern composers of the day, and no pains have been spared to make the performance worthy of the high ideals of the College of Music.
Director Pearson will spend most of the summer in New York where he will doubtless meet several of his faculty.
The attention of the public is called to the general organization of the College of Music in its different departments or divisions such as piano, violin and voice. The organization is unlike many other schools which have one principal teacher in each department with student assistants.
With this organization, there is no head of any department except the director. The general plan is that all positions in the College of music are filled by not only the best artists and performers but also the best teachers that can be obtained. With the exception of one or two of the teachers in the primary work, each member of the faculty is able to take the pupil to the completion of her work.
The College of Music is just closing one of the most successful seasons in its existence and looks forward with an unchanged faculty to new achievements for next year.

MRS. READ SCORES SUCCESS IN OPERA

Mrs. Helen Brown Read, for-
merly of Jacksonville, scored a
great triumph in the singing of
the role of "The Widow" in
"Elijah" which was recently pro-
duced by William Dodd Cheney
of Springfield in Kansas City, Mo.
Mr. Cheney in writing to Spring-
field friends of Mrs. Read's suc-
cess as quoted in the State Jour-
nal said:

"Mrs. Read created a real sen-
sation by both her fine singing
and her very dramatic rendition of
the important role. Seldom have
I heard her sing as well at any
time. All the clear freshness
that first attracted us to her sing-
ing in Springfield was there and
if anything, the music enabled her
to give unusual volume and power
to her tones. Kansas City has
many eminent soloists and nearly
all the best of them were in the
cast—in fact there was a double
cast and each role was divided to
enable the committee to enlist
their popular singers. Still, with
these local favorites in the cast,
the committee assured me that
she was a wonderful addition to
the musical circles of the city.

"This was the first work in my
own line that I have done since
I left by truck yesterday morning
and it was with some anxiety I
waited to see if public sentiment
for my particular style of work
had changed. Here is the answer
—everything was in superlatives.
It was by far the largest set of
audiences that ever attended any
performances in my thirty years
of opera production."

Monday for ten days at Ossining,
N. Y., on the Hudson, and on June
6th, with a party of friends will
sail on "The Paris," a French
liner for Harve, France. From
there they will motor to Paris,
then to Belgium, Holland, and
Italy. They expect to fly over the
English channel from Paris,
France, to London, England. On
their return to America late in
August Mrs. Masters will go to
Edensburg, Penn., which is lo-
cated at the summit of the Allegheny
mountains. She will return to
her home in Washington about
November first.

Wool Growers Attention

We are one of the oldest wool houses in Central
Illinois. Our wool buyer has been buying wool
from the farmers for nearly 50 years and during that
time we have made a host of friends in the wool
trade. We are still buying wool and paying the
highest cash price. Will furnish wool sacks and
wool twine. Telephone or write and we will send
them by parcel post.

Very Much Desired

Low price is one phase of Willys-Knight value. Beauty
is another. But greater than price, greater than looks,
is performance. The marvelous Willys-Knight engine
actually improves with use. Carbon only makes it better.
Owners report 50,000 miles and more without a single
engine adjustment.

Closed Car Comforts at Open Car Cost

Prior to the Coach, closed cars on high-grade chassis were too costly for most buyers.

A moderate priced closed car meant a low-priced chassis.

The Coach, for the first time combined closed car comforts and fine chassis quality, at a price for all. It gives every utility you can get in any closed car. And you do not forfeit performance, reliability and mechanical excellence to obtain these advantages at almost open car-cost.

The Coach is staunchly built. Doors and windows stay tight and snug. It is built throughout for long hard service.

On either the Hudson Super-Six or the Essex chassis it meets every family and business requirement—a good looking, easily handled car for comfortable, all weather travel.

In choosing your next car, be sure to see the Coach. It will satisfy your every closed car need at a saving of from \$500 to \$1200.

Forceful Facts Concerning the Interests of Former Soldiers, Sailors and Marines

Great Britain has more than 2,000 war cemeteries in France. Bombs were invented in 1538, and first used in war in 1634. In the past 60 years, 328 Americans have been awarded the Congressional Medal of Honor.

Approximately 220,569 acres of public land were recently opened in Oregon to ex-service men for homesteading.

As the result of the World war, 1,134,000 German children were left partially orphaned. There are 58,000 orphans listed.

Since 1919, England has awarded 14,000,000 medals to former World war veterans. More than 1800 miles of ribbons has been used for the decorations.

The smallest airplane used in the United States army is 16 feet long and has a wing spread of 20 feet. The craft is driven by a motorcycle engine, and travels 62 miles an hour.

A general in the United States army wears four silver stars; lieutenant general, three silver stars; major general, two silver stars, and a brigadier general, one silver star.

The Royal Air Force of Great Britain has 3,000 officers and 26,

000 enlisted men. There are 33 squadrons; 21 of them in the colonies, the Near East and India, and 12 in the British Isles.

Copper stills seized in Los Angeles, Cal., by prohibition agents are given to disabled veterans of the World war, who turn the metal into desk ornaments, book holders and other useful articles.

The United States army is selling five miles of books, or 1-19,000 volumes, at public auction from its supply base in Brooklyn, N. Y. The majority of the books are of a technical nature.

According to official figures just brought up to date, Germany lost 1,848,293 dead and 1,537,000 wounded in the World war. The number of dependents left by those who lost their lives is fixed at 1,945,000.

Major John Kaestner, Germany's greatest flying ace, credited with bringing down 68 planes in the World war, and his flying partner, Lieut. G. Van Dorn, are now in Bridgeport, Conn., studying submarine engineering.

Three monuments were recently erected at Bellecourt, Brancourt and Premont, commemorating the victory of Tennessee and South Carolina troops of the Fifty-ninth Brigade, Thirtieth Division, over the Germans in September and October, 1918.

A petition is being prepared by the Association of Spanish War Veterans at Philadelphia, Pa., to be forwarded to Washington in an effort to have the name of the Olympia, flagship of the American fleet at the battle of Manila Bay, removed from the list of vessels to be scrapped.

The Congressional Medal of Honor was recently presented to Leander Heron, age 89, of Nebraska. He won this honor as corporal of Co. A, Third United States Infantry, in one of the most thrilling one-sided battles with the Indians that haunted the Santa Fe trail before the railroad came to Kansas.

The 107th Infantry of the United States army was recently decorated with the Order of the Tower and Sword by Portugal. The regiment served near the Portuguese troops on the western front in 1918. The order, formulated by Alphonse IV, in 1459, is conferred for conspicuous military or civil achievements.

The type of binoculars now in use makes khaki plainly visible, and therefore a new uniform cloth may be substituted for the United States army. Khaki, when it was adopted, was thought to render troops less visible than any other color. The theory on which army officials are now working is that a blend embodying fewer brilliant dyes should be used. Khaki is a blend of red, yellow and green, all of them striking colors.

General Henri Gouraud, of the French army, plans to attend the reunion of the Rainbow Division, to be held in Indianapolis, Ind., July 15. It was as a unit of the Fourth Army in France that the Rainbow Division came into contact with General Gouraud, who commanded that unit of the allied forces. He is a chevalier of the Legion of Honor and is entitled to wear the Medaille Militaire and the Grand Croix of the Legion of Honor. General Gouraud lost an arm at the Dardanelles.

FRECKLES

Sun and Wind Bring Out Ugly Spots. How to Remove Easily

Here's a chance, Miss Freckle face to try a remedy for freckles with the guarantee of a reliable concern that it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine-double strength—from Drug-gist and a few applications should show how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

HOLSTEIN COW ASSOCIATION

TO MEET IN CLEVELAND
Cleveland.—The thirty-eighth annual convention of the Holstein association of America will be held here June 6.

The first herd books of the association showed 270 registered Holsteins. Today there are more than a million animals registered in these books. In the last year 113,772 registrations were made.

High records of production have been made by 95,000 cows, under the supervision of agricultural colleges, admitting them to the advanced registry. Sixty-seven Holsteins have produced more than 1,000 pounds of butterfat in one year.

The association, of which ex-Governor Frank O. Lowden of Illinois is president, has a reserve and surplus of \$459,000.

Even one pimple can ruin your looks. S.S.S. stops pimples!

A beautiful complexion is born in your blood. It also dies there, if you let it. Blood that is rich in Blood-Cells is pure. It shows its purity through the skin.

When one pimple comes out on your face, you can be almost certain that there are more to follow. It also means that impurities are

You will be startled how quickly and thoroughly you can stop skin eruptions and beautify your complexion with S.S.S.

accumulating in your blood to make your complexion worse instead of better. Face creams will not solve the trouble. There is always one quick and sure way to make your complexion free from all eruptions, pimples, blackheads and muddiness by building up the skin-purifying "machinery" which is in your blood. That is by building up your red-blood-cells. S. S. S. is admitted to be the leader among skin beautifiers. Rich blood, rosy face. Poor blood, "muddy" face. There are thousands of women who wonder why their complexions do not improve in spite of all the face treatments they use. They should not continue to wonder. Increase your blood-cells—that is the only answer. Use S. S. S.—that is the other answer. S. S. S. contains only pure vegetable medicinal ingredients. It is also a remarkable builder of firm flesh, which is also important to beauty. It will fill out your hollow cheeks, put the "ruby" of health in your cheeks, and the sparkle in your eyes. It is all done by building blood-cells. S. S. S. does it.

Since 1826 S. S. S. has been beautifying complexions, and giving women physical charm—all through one great secret, the blood-cell. S. S. S. is known and accepted as one of the greatest of all body-cleansers and blood-builders. Try it if you have pimples, blackheads, boils, eczema and skin eruptions. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

S.S.S. makes you feel like yourself again

NEW YORK, May 26—Specula-
tive sentiment was again decid-
edly bullish in today's brief and ac-
tive session of the stock market,
a prices moving briskly to higher
ground, third successive day.

Competition for stocks between
bear traders who had sold heavily
on the recent reaction and specu-
lators for the advance resulted in
some substantial gains, particu-
larly in the oil, steel, can and
equipment groups.

Several recent constructive de-
velopments in the oil industry as
higher gasoline prices in the mid-
continent field and restricted out-
put on the Pacific Coast attract-
ed attention to those shares which
had been depressed by a success-
ion of price cuts and over-produc-
tion of California crude oil.

Steel shares did not appear
to be affected by Chicago confer-
ence of progressives on the rail-
road revelation after trading in
them was not very active.

Active United States govern-
ment bonds were easier today,
the four liberty issues yielding
from 4-32 to 8-32 of a point. The
tax exempt 3½s and treasury 4½s
made slight gains.

JEWETT SIX PAIGE BUILT

All-Steel Universal Joints—Oiled Once a Year!

OILED—not greased. And usually good for 15,000 miles or more of travel before they need re-oiling. An entirely new type of universal joint, all steel, with its lubricant sealed in; and dust, dirt and grit sealed out! Oil does not escape, and it penetrates bearings as grease never does or can.

"Back-lash"—that old affliction of neglected and poorly oiled universals—never develops in a Jewett. Even the wear of thousands of miles is imperceptible. Here at last is a part you can forget without neglecting! We'll gladly show it to you in the absolutely best Six around a thousand dollars now being built! Our time is yours.

Telephone Talk No. 19

"There is a Chance for Error in Every Guess"

The telephone number of a business house is 1698. A residence subscriber whose number was 1689 requested us to change his number. He complained that he was called a score of times a day by people wanting the business house.

The explanation is that many people guessed at the number, and guessed wrong, asking the operator for 1689 instead of 1698.

It is easy to be wrong when you guess, and unfortunately the person called in error generally blames the service.

Next to guessing as a fruitful source of unsatisfactory telephone service is placing of undue faith in the correctness of the number on an old card, letterhead or list tacked to the wall. Use instead the Ready Reference Register on the inside front cover of the directory.

But better still, in a telephone system where numbers are constantly changing, one should always make sure of the correct prefix and number by consulting the telephone directory before calling.

It is the quickest and surest way to get the right number.

LOCAL MAN RETURNS FROM MAYWOOD HOSPITAL
Claude P. Baird, a veteran of both the Spanish and World wars, who has been a patient for some time in the Veterans' hospital at Maywood has returned to Jacksonville having been discharged from the hospital on account of his wonderful improvement. Mr. Baird says that Mr. Molohon who recently went to Maywood is getting along nicely, and that Luther P. Burke, another Jacksonville man who served in both wars seems to be quite a bit improved. He did not get to meet Bill Ribelin while there so was unable to furnish any late news regarding him.

REV. E. B. LANDIS PREPARED PAPER

Former Minister Wrote Paper for State Historical Society—Told of Influence of Tennessee Immigrants on Early History of State

SPRINGFIELD, Ill.—Much of the progress of early Illinois can be traced to the influence of immigrants from Tennessee, who came to this state to the number of 30,000 in the early migration period, according to a paper recently prepared for the Illinois State Historical Society by the Rev. Edward B. Landis of Homewood, Ill.

"There were three migrations from Tennessee into Illinois extending thru the first half of the 19th century," wrote Rev. Mr. Landis. "The first was from about 1800 to 1825. This migration was animated largely by the commercial idea of cheap land, a fertile country, an opportunity for a home. This is a most worthy incentive for much of the cleared land in the older sections was already taken by others ahead of them."

"This movement was not because of the slavery question, except in a minor way, for slaves were held by some in Illinois from 1795 to 1824 or 1825—period of one hundred years. It is to the credit of the people, however, that in 1824, when their first vote upon the subject was taken, the soil of this great state was to be known as free-soil."

"Beginning immediately a second migration from Tennessee began, which was animated by a desire to be out of slave territory. A great many Tennesseans were opposed to slavery and wanted their children brought up on free-soil territory, so they packed up their belongings and set out across the long intervening territory without roads much of the way—hoping to reach the new country with its higher ideals. Great honor is due these sturdy pioneers who hewed out a path thru the trackless forests and across broad prairies, crossed streams on crudely constructed rafts, undergoing all manner of privations and hardships for the sake of an ideal."

"The third migration was after the close of Civil War. Times were hard in Tennessee at that time and families, for their own sake, and for the sake of the young people, moved to Illinois, and other western states."

"The influence of these Tennesseans has been very variously estimated."

"Shortly after the first great numbers arrived and settlements sprang up over different sections, new counties were formed and in the leadership of these counties many officers were chosen from the Tennesseans. Records here are incomplete but in St. Clair, Randolph, Massac, Pope, Hardin, Gallatin, Monroe, Perry, Franklin, Washington, Jefferson, Morgan, Schuyler—later in Brown and Cass, Sangamon, Madison, Greene, Bond, Macoupin, Clinton, Marion, Knox, et al—counties these facts seem to be borne out."

"In the first constitutional convention there were a number of these men so it early became evident that many of these men filled positions of honor and trust in offices throughout the state."

"There is one other phase usually overlooked by historians. The wives of some of these prominent men were women of distinguished families, bringing to their new homes a culture, poise and charm of an 'elect lady.' She may have had to undergo more privations in the new country but her influence was ever felt for good and upright conduct. Respect for law, early establishment of church and schools all testify of a wholesome influence exerted by some."
